

# EXAMPLES OF THE RESULTS CHAIN AND FRAMEWORK OF AN FLC PROJECT - Project on Voter and Civic Education

**Description:**

In the results chain or framework of an FLC project, the outcome and impact are derived from the FLC Programme, for the project's outputs are expected to contribute to the FLC Programme's objectives, which then in turn contributes to the impact of the Programme. In addition to a results chain, a complete Results Framework will include indicators, baseline data, risks and risk management.
